Data Structures,  
Object-Oriented  
Programming, Databases,  
Web Development,  
Algorithms

## PROFILE

*i am a motivated and versatile Backend Developer with hands-on expertise in Django, RESTful APIs, and LLM-powered applications. Currently pursuing a degree in Computer Science, I bring a solid technical foundation complemented by practical experience in AI integration, backend systems, and scalable API development. Additionally, I have a creative edge as a Social Media Marketer and Graphic Designer, enabling me to build user-focused digital solutions that are both functional and visually compelling.*

## WORK EXPERIENCE

**Full Stack Developer**  
**AI LLMs Programmer**

**April 2024-June 2025**

->Full Stack Developer and AI/LLM Programmer with hands-on experience building intelligent web apps using Django, Python, LangChain, and OpenAI for tasks like chatbots, resume screening, and customer support.

->Designed and deployed secure, scalable REST APIs with Django, integrated vector databases, and connected AI workflows with real-time backend logic.

->Developed responsive frontends using HTML, CSS, JavaScript, and Streamlit, ensuring smooth, interactive user experiences tightly integrated with AI features.

**Social media marketing  
and Graphic designer**

**Decemeber 2023 -July 2024**

->Designed and executed social media strategies across platforms (Instagram, Facebook, LinkedIn), increasing engagement and brand reach.

->Created eye-catching graphics and brand assets using Adobe Photoshop, Illustrator, and Canva for digital campaigns and web use.

->Ran targeted ad campaigns, tracked analytics, and optimized content based on audience behavior and performance insights.
